Communication Date: **2018-03-08**

These are just the 20 reports that are on file with the Office of the Lobbying Commissioner. It's fair to assume that there have been many, many more talks that aren't documented.

These are just the 20 reports that are on file with the Office of the Lobbying Commissioner. It's fair to assume that there have been many, many more talks that aren't documented. While that is likely the case, we need evidence to make that conclusion though.

The focus of this article will be on the bureaucrats and politicians themselves who are being lobbied. Who are they, what is their game, and is there any conflict of interest? As will be shown below, many of these politicians and bureaucrats may have already been on board prior to meeting with Gates' proxies.

It is the next logical step. Crestview Strategy, and their ties to GAVI have been posted, but what about the people they lobbied? What is their take on things?

Did They Already Support Gates?

Going through the LinkedIn profiles of the bureaucrats whom Crestview Strategy (on behalf of GAVI) have been lobbying, many of them show an interest in Bill Gates, his wife Melinda, or their foundation. It's worth asking if those profiles have been updated recently to reflect their meetings, or whether they "already" were on board with Gates' vaccination agenda.

Would be nice to get an answer on this, but we likely never will. So take the above information for what it's worth.
